

Buratex W 4003

Features

Buratex B 4003 is a flexible cotton packing impregnated with a special light-colored grease impregnating agent. It is preferred for pure, liquid media and clean applications. When it is manufactured, particularly tear-resistant cotton threads are pre-impregnated and twisted. At the next diagonal braiding step, the packing undergoes an additional intensive impregnating stage.

Key physical characteristics

Operating temperature min. [°C]	-20,00
Operating temperature max. [°C]	100,00
Medium pressure max. [bar]	60 A 10 P
Speed oscillating [m/s]	2,00
Speed rotating [m/s]	10,00
Chloride content [ppm]	< 300
Sulfate content [ppm]	< 500
Fluoride content [ppm]	< 10
Iron content [ppm]	< 100
suitable for pH value	6-8
P*V factor	50,00

All technical specifications are based on extensive tests and our many years of experience. The diversity of possible applications, however, means that they can serve only as guide values.

We must be notified of the exact conditions of application before we can provide any guarantee for a specific case. This is subject to change.
